For Office Use Only

- Individual Refused to Sign.
- Communications Barriers prohibited acknowledgement.
- An Emergency situation prevented us from obtaining acknowledgement.

As is newly required by law, this paper acknowledges that you received a copy of our Privacy Practices Notice. The Notice is for you to keep, and you may request another copy at any time. Please know that we consider the privacy of your healthcare information very important. However, as stated in the Notice, there are times when we must consult with your other healthcare providers (such as your physician or your dentist) in order to render you the best possible treatment in our offices. We will also remind you of your appointments, including by telephone (or telephone messages at your home or work, if you are unavailable when we call) and by postcard. And for our patients who desire our assistance with insurance filing, you should know that your insurance carrier will often request your healthcare information necessary to complete the insurance claim. Please read the Privacy Notice that is post in the waiting area, and let us know you object to any of our Privacy Practices, so that we can talk with you about alternative arrangements. Remember, any requests should be in writing.

Thank you very much for your cooperation!
